

MEMIX220

Meat Mixer

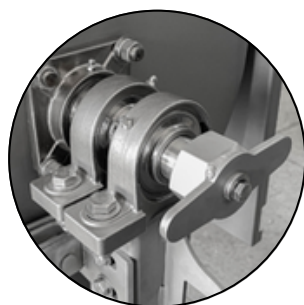

Built for durability and performance, the Meat Gear Meat Mixer ensures efficient, high-capacity processing with smooth power delivery and advanced safety features. Its rugged stainless steel construction, sealed components, and easy-clean design make it ideal for demanding commercial environments.

STANDARD FEATURES

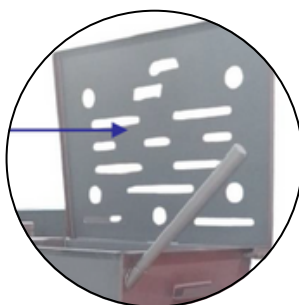

- ½ HP Motor Reducer with heavy duty gearbox - 120v - 0.37 kW
- 220 lbs capacity
- Delivers up to 1194 lbs-ft of torque
- Chain and Sprocket Transmission for reliable power delivery
- Heavy duty stainless steel body for superior strength and corrosion resistance.
- Start/Stop switch with auto shut off system.
- Visual and audible alarm - signals when the programmed time ends
- Magnetic safety sensor disables operation when the door is open
- Easy and efficient unlocking mechanism for product release
- Fully sealed electrical system that protects against moisture and contaminants
- Easy removable stainless steel mixing paddles - no tools required.
- Liquid sealed mixing drum with protective retainers.
- Tilting drum with automatic locking system to ensure a safe operation.

OPTIONS:

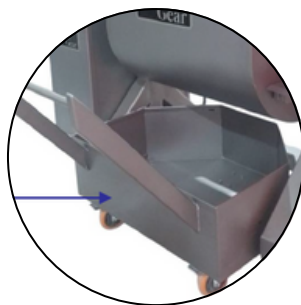

- Ribbon Style Mixing System
- Unload Cart Dolley
- Stainless Steel Swivel Casters with brakes

Crank to release the paddle system

270-degree rotating tank door

Unload Cart Dolley

Meat Mixer

Details and Dimensions

Technical Specifications

Electrical: 120 Volts, 60 Hz and a Single Phase.

Motor: 0.5 HP Reduction Motor.

Control Panel: Located in front of the Meat Mixer.

Cord & Plug: A 6 foot flexible 3-wire cord with a NEMA 5-15 Plug.

Transmission: Heavy duty gearbox that delivers 1194 lbs of torque.

Capacity: 220 lb Mixing Capacity.

Finish: Heavy Duty Stainless Steel Construction.

Warranty: Meat Gear 1-Year Warranty, Parts and Labor.

Weight:

Unit Net: 480 lb

Shipping : 515 lb

Dolley Shipping: 110 LB

Dimensions: L x W x D

Unit: 52" L x 26" W x 44" H

Shipping: 58" L x 29" W x 50" H

Attributes - Advantages

Performance:

- Chain and Sprocket Transmission for Reliable Power Delivery.
- Ventilation to ensure long life and operation.

Ease of Operation:

- Easy removable stainless steel paddles - no tools required.
- Tilting drum with automatic locking system to ensure safe operation.

Smart Control / Safety

- Start/Stop Switch with auto shut off system.
- Visual and Audible Alarm - Signals when programmed time ends.
- Magnetic safety sensor, disables operation when door is open.
- Fully sealed electrical system to protect against moisture and contaminants.
