TD-AR

Wall Mounted Automatic Towel Dispenser

General Information

Project Name: _____

Consultant: _____

Item #: _____

Model #: _____

Quantity: _____

Specifications

TD-AR Model Wall Mounted Automatic Towel Dispenser holds & dispenses one 8" wide x 8" diameter [203 x Ø203] standard towel roll up to 800 ft. (244m) long and one 8" wide [203] stub roll up to 4" diameter [Ø102].

The cabinet & frame are constructed of 22GA type 304 stainless steel alloy 18-8. The towel dispenser door is made from 18GA.

The unit is powered by four (4) D-size batteries (not supplied) & operates automatically to activate towel dispensing when hands are placed in sensor zone.

The unit is provided with refill viewer slots on each side & internal towel stack guides.

Door shall be attached to cabinet at side with a full-length 3/16" diameter [Ø4.8] stainless steel multi-staked piano hinge and shall be held closed with a tumbler lock keyed.

Product Guide

Owner predetermines length of towel dispensed by making selections on three (3) three-position switches for length, delay, & economy.

Unit may be reloaded with a full roll to automatically start when finished with an existing partial roll & will continue to feed properly when reloaded with a full roll & partial roll is transferred to stub roll position.

Refill dispenser by unlocking door & replacing towel roll for an empty or partially empty unit. Dispenser supply is replenished & batteries are replaced manually on cycles determined by maintenance needs.

LED indicates sensing & battery condition.

Locking door prevents unauthorized access and roll removal.

Options

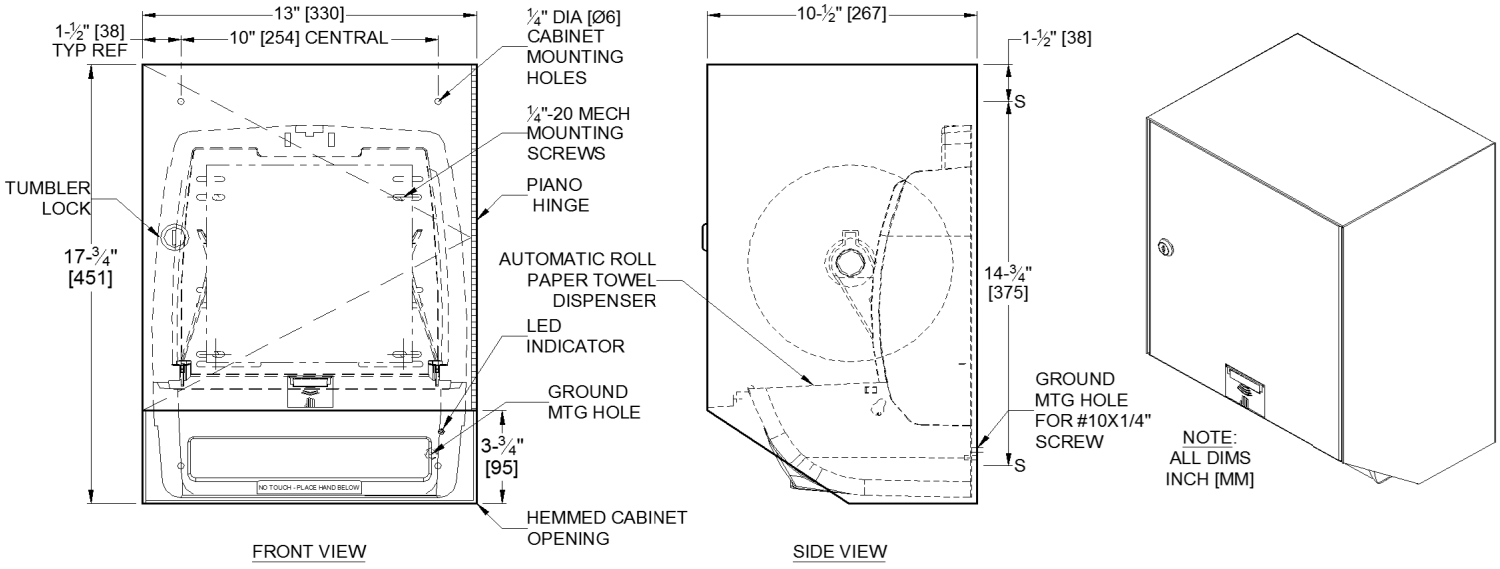

- ☐ Security/Correctional design includes security screws & wrench/no lock
- ☐ Stand-alone wall mounting
